Election/Restrictions

Claims 1-12 and 24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected group, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on December 17, 2004.

Applicant's election of Group II in the reply filed on December 17, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-23 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Biedermann et al US Patent 5,972,031.

Biedermann et al discloses a spacer comprising a tubular body having first and second ends wherein each end has a rim, a longitudinal axis, a perimeter defining a jacket wall extending in the direction of the axis, wherein a plane tangent to the jacket wall of the first body section intersects the longitudinal axis, cutting the tubular jacket material to the length of the spacer and

expanding or narrowing the first and second ends of the spacer (see Figs. 1-11; col. 1, lines 65-68; and col. 2, lines 33-39).
